Knowledge for a
Clean Energy Future
Newsletter n° 7 2019

Enel Foundation is a non-profit organization.

Enel Foundation focuses on clean energy's crucial role in ensuring a sustainable future for all. We conduct research and education exploring the implications of global challenges in the energy domain. We operate in partnership, at the intersection of business and society leaving no one behind in the energy transition.

Open Africa Power 2020: Record number of applications

The third edition of Open Africa Power coming up in February 2020 received more than 750 applications from 41 African countries making the upcoming training the most international and diverse since the program's inception. A total of 60 participants with excellent academic and personal life path were selected, 43% of whom are women and 63% of whom have completed or are completing PhD studies. The initial residential training module will be hosted at the Power Futures Lab at the University of Cape Town's Graduate School of Business between 10th and 14th February 2020. Follow the #OpenAfricaPower journey on social media!
