# Knowledge for a Clean Energy Future

Newsletter n° 14, July 2021

## Enel Foundation is a non-profit organization.

Enel Foundation focuses on clean energy's crucial role in ensuring a sustainable future for all. We conduct research and education exploring the implications of global challenges in the energy domain. We operate in partnership, at the intersection of business and society leaving no one behind in the energy transition.

## Geopolitics of the Energy Transition

## Discussing the geopolitics of the energy transition with ISPI and the British Embassy in Rome

June 22, 2021

Enel Foundation attended “Geopolitics of the Energy Transition”, an online event held on June 24 by ISPI – Istituto per gli Studi di Politica Internazionale with the collaboration of the UK Embassy in Rome and Enel Foundation. The event fell under the umbrella of All4Climate – Italy 2021, and tackled the new concept of energy security that is emerging as the world shifts to clean energy sources and countries increase energy independence.

The image shows the cover of the book "Beyond Energy: Incentivizing Decarbonization through the Circular Economy" on the right, which features a green and blue abstract wave design. To the left of the book is a silver microphone icon. Further left is the Oxford Institute for Energy Studies logo, a stylized white symbol on a dark blue background. Below the book and microphone, the text "Beyond Energy" and "Incentivizing Decarbonization through the Circular Economy" is displayed.
