Knowledge for a
Clean Energy Future

Enel Foundation is a non-profit organization.

Enel Foundation focuses on clean energy's crucial role in ensuring a sustainable future for all. We conduct research and education exploring the implications of global challenges in the energy domain. We operate in partnership, at the intersection of business and society leaving no one behind in the energy transition.

Events & Protocol
events@unibocconi.it

Mind the Gaps is a digital live tour developed in spring 2021 by Enel Foundation that virtually unfolded across Italian regions engaging high school and university students on energy transition and its impact on competencies and skills required. A special hybrid session of the Tour is hosted by Bocconi University in collaboration with Enel Foundation on occasion of youth4climate and Pre-COP 26 held in Milan in September 2021.

Experts, top managers and academics will discuss about equal distribution of wealth, climate change and energy transition and their impact on a more sustainable future, engaging the generation that will drive the sustainable development of tomorrow.

The outcomes of "Giovani e Futuro" research developed by Istituto Piepoli in collaboration with Enel Foundation on the future trends of Millennials and Generation Z will pave the way to the round table that will tackle the following questions:

- *Sustainability*: which are the new trends in sustainability and the relationships with finance? Are climate change issues material for all companies today?
- *Technology and well-being*: time is key to win the climate emergency challenge, how can we speed up the technological revolution we all need? How are these changes going to impact our lives?
- *ESG ratings and indicators*: ESG are becoming part of our managerial and finance jargon, why are they so important? What are the challenges with ESG metrics?
- *Job market and competencies*: are there new opportunities and skills required? How is ESG affecting professional careers?

5:00PM

WELCOME ADDRESSES

GIANMARIO VERONA Rector, Bocconi University
MICHELE CRISOSTOMO Chair, Enel Group

5:10PM

ICE BREAKING SPEECH ON "GIOVANI E FUTURO" RESEARCH
